PERSONAL PROFILE

I am a goal driven, God fearing and Integral person with 5 years' experience in software development (programming). I am a full stack software developer (front and Bac end) with versatile and outstanding skills in multiple programming languages and Software development frameworks which include; C#, Python, Java, PHP, MySQL, XML, React js, Vue js, React Native, Django framework, Dot net, dot net core, Asp.net and Laravel.

I have 3 years' experience in teaching as a Teaching Assistant at Makerere University Business School (MUBS) under the faculty of Computing and Informatics, department of Applied computing and IT.

CAREER OBJECTIVES

To find a challenging IT position in a reputable organization which will meet with my level of skills and expertise in order to reach my fullest potential, by offering a solution based approach to various organizational challenges so that goals and objectives are achieved at a benefit.

An intelligent, self-motivated and adaptable individual who has built a mature and responsible approach to undertaking any task

Beyond my degree in Bachelor of Business Computing I have built skill set in teaching, research, programming, communications, computer literacy, multitasking, leadership and team work.

For high competency in both verbal and non-verbal communication I set to always meet my deadlines as a Software Developer.

I have great interpersonal skills with confidence, open mindedness and can interact with different people in a friendly and professional manner under different circumstances. I am very passionate about what I do, dedicated to performing my best and the work at hand is always my priority.

I am a fast learner, and adaptive to the operational procedures of a new organization in the fastest time possible.

CAPABILITY REPORT

I have multiple capabilities that I exhibit and I believe with these am competent enough to take on the job;

- Superior interpersonal relation skills
- Research skills
- Programming skills
- Good communication skills
- Strong and aggressive when doing work.
- Innovative
- Self-driven
- Team working
